7-Point Buck On First Day

Larry Ferguson, 13, and eighth grader at Appomattox High School didn't have to wait long to take his first buck of the new hunting season which opened Monday. He brought down this handsome, seven point trophy Monday afternoon with a 410 shotgun. The last day of the past hunting season (Jan. 5, 1969) he shot another buck, first in his hunting career. Larry and his dad, Harry Ferguson of Vera, are members of the Mt. Hope Hunt Club. Several other county hunters also reported deer kills on the first day.

Six-Pointer Bagged Tuesday

"When did you kill that big one?" was the question put to Kelly O'Brien. "What time is it now?", he asked. A quick check on the clock revealed that just about one-half hour elapsed between pulling the trigger and pulling the white tab on the camera to show O'Brien's handsome six-point buck which weighs about 165 pounds. The deer was shot on Fred Robertson's property. Reports coming in indicate a good season for deer hunters with a number of good size buck being taken in various sections of the county.

We Explore 4-H Projects

This year we have been leaning about exploring animals and plants. We have been learning about plants. Some plants grow together to make it easier to find them.

Now, about wild animals . . . What do they eat? Some eat little animals and some eat insects and many other things.

And we also learn about farms. How do you take care of animals on farms? Well, 4-H tells you about it. It tells you that animals are happy on a farm. 4-H also tells you about a dairy farm, too. What is done to keep the milk as fresh and clean as it is. 4-H tells you.

You can be a real help to your mother anf father, like asking your mother and father "Can I do another job?" 4-H tells you all of this. Hope you will enjoy 4-H some day.

By Janet M. Hudson
